SSISA is a recognised provider of the Register for Exercise Professionals South Africa (REPSSA). The National Certificate: Fitness via online learning is designed into six study blocks; Study Blocks 1 – 4 contain the content as well as formative activities and theory and practical summative assessments, block 5 contains the final integrated summative assessments and block 6 appertains to your Workplace Experience Logbooks. A student must be up to date with course fees to be granted access to the next study block. All formative activities and reflections are to be completed to move from one module to another within a study block. A student must meet the pass mark of 60%, A student must complete all formative activities and self reflection in each module within a study block in order to progress to the next module. The student must pass the theory, practical and project summative assessments in each study block as well as log 60 hours of workplace experience and complete both the theory and practical integrated summative assessments to be eligible for their certificate. Study blocks must be completed in a pre-defined order(1, 2, 3, 4; access to blocks 5 and 6 will be granted at the time of access to block 4). A student must complete all formative activities and self reflection in each module within a study block in order to progress to the next module. The student must pass the theory, practical and project summative assessments in each study block as well as log 60 hours of workplace experience and complete both the theory and practical integrated summative assessments to be eligible for their certificate. This qualification has a practical component. Students will be required to submit videos of their own demonstrations for assessment.
